

BASECHEM

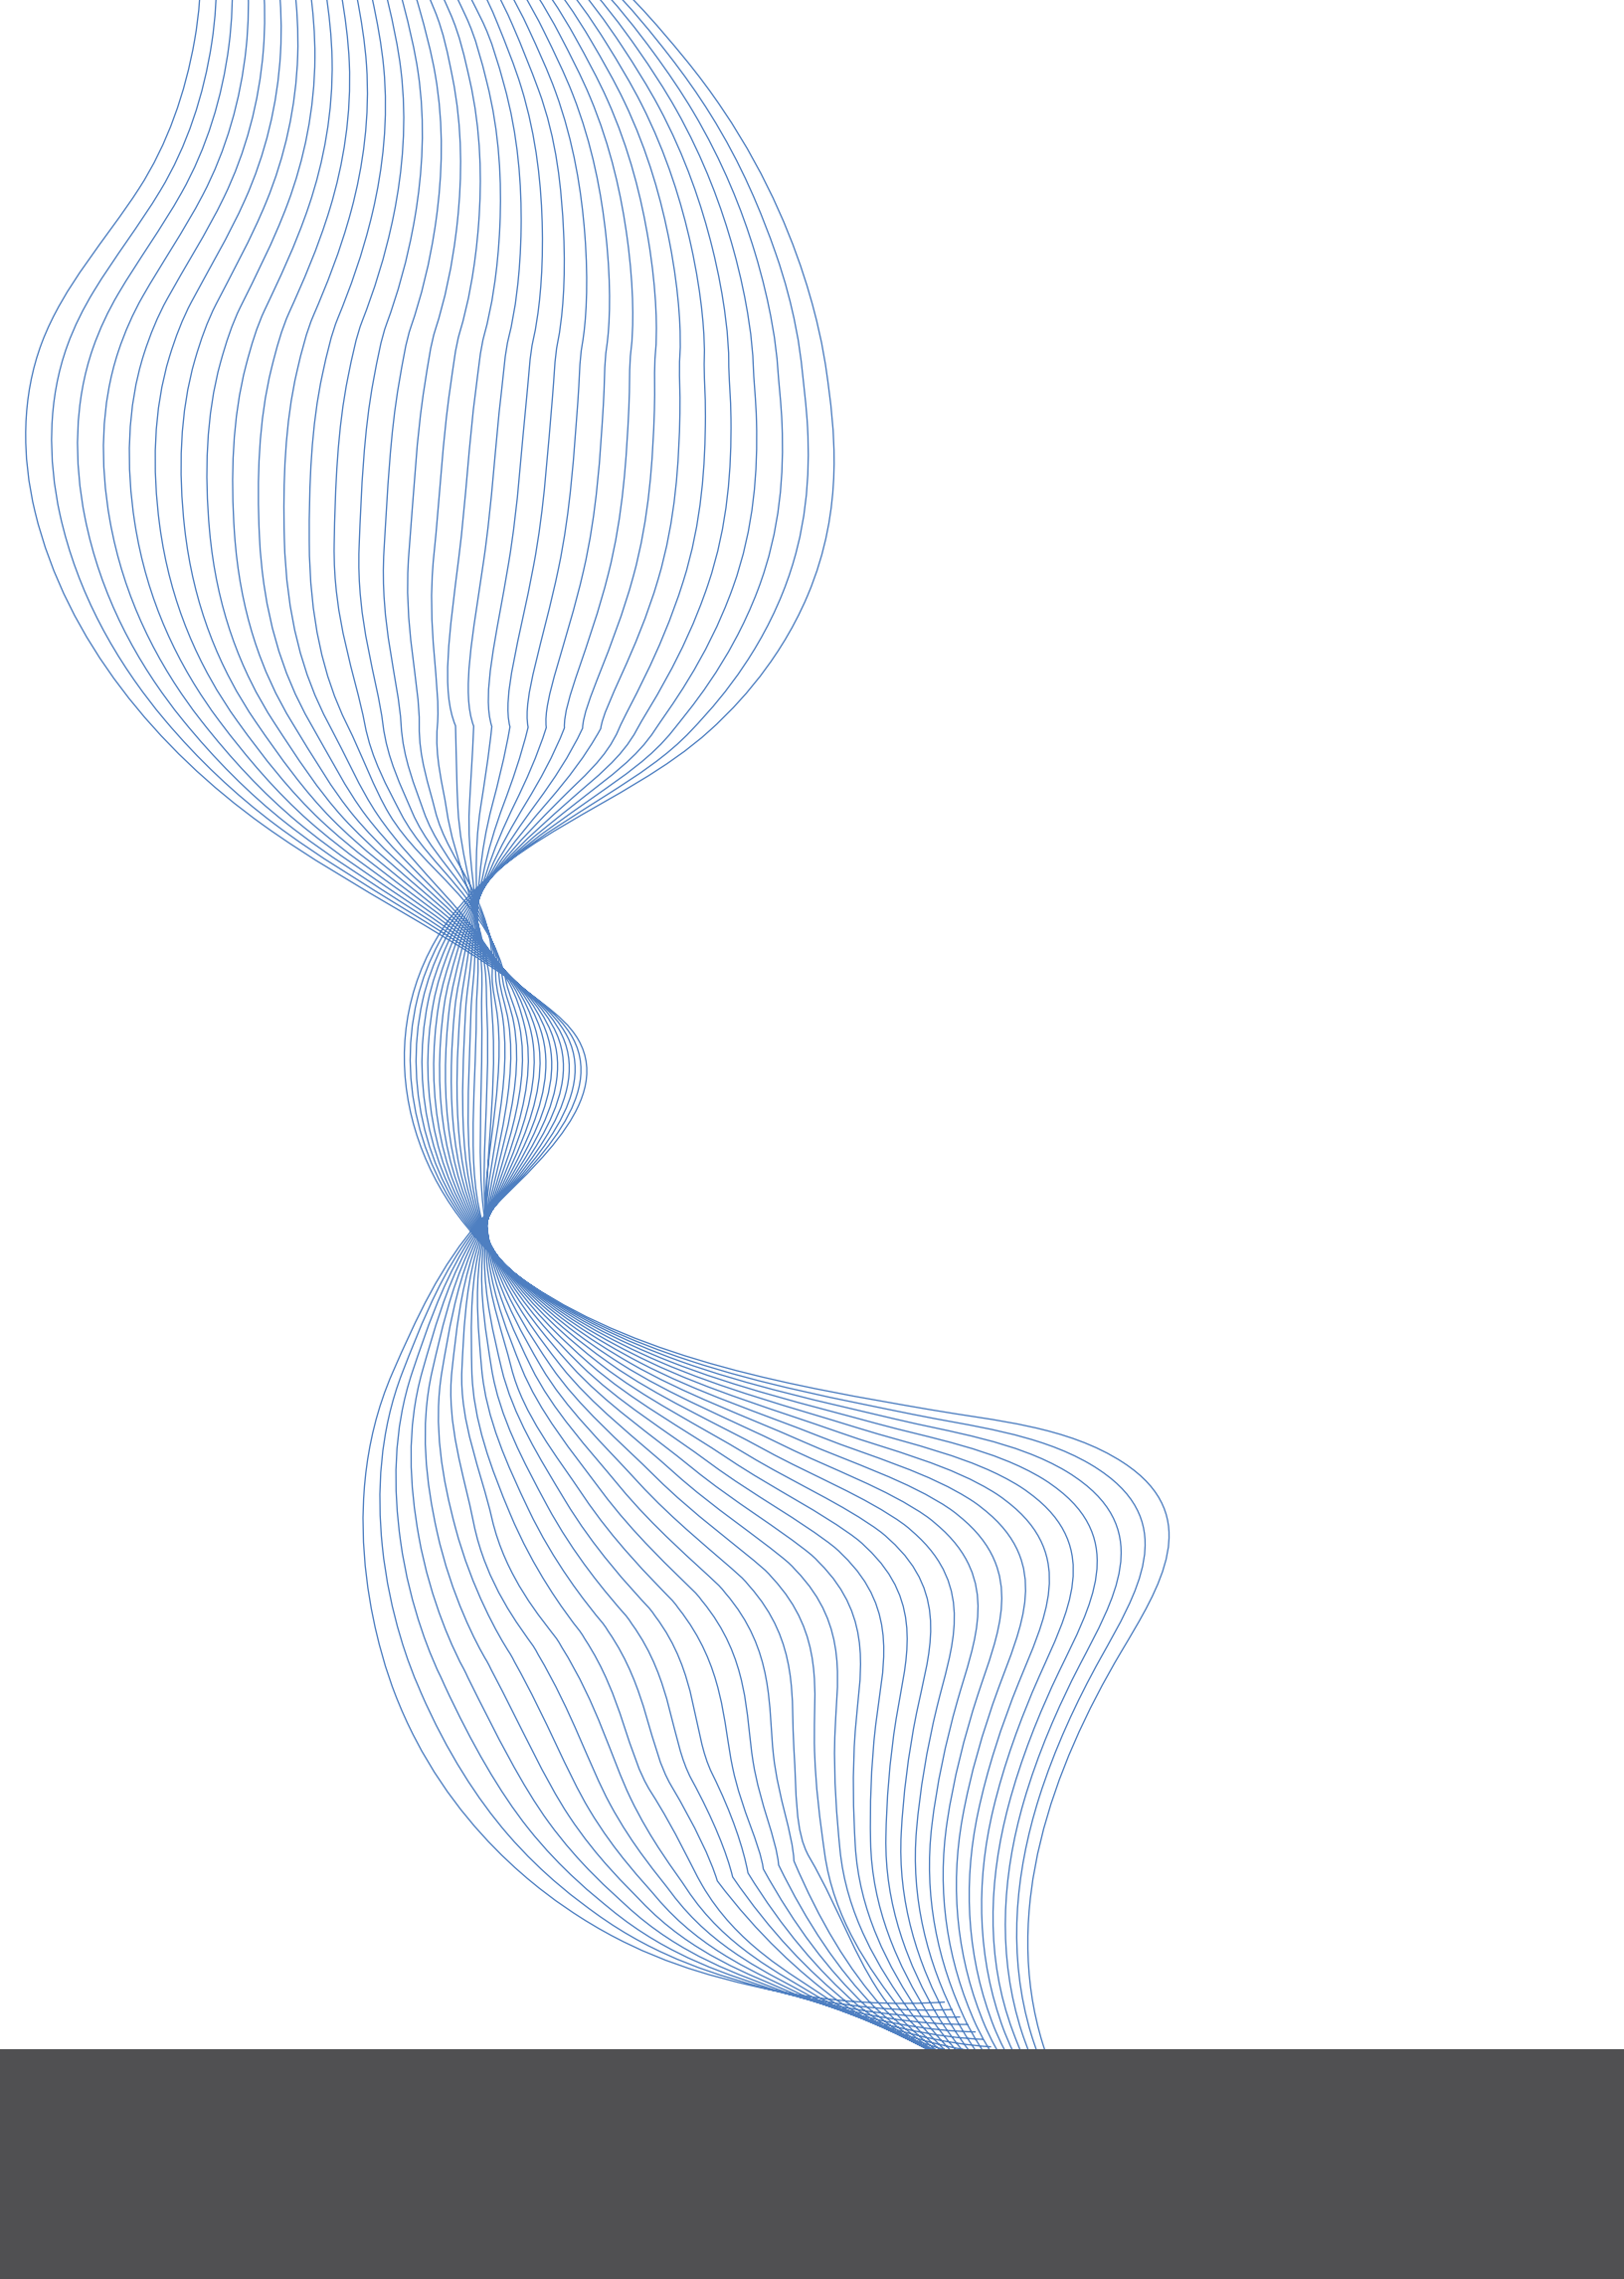

BASECHEM

WATER TREATMENT PRODUCTS

Cooling Water systems,
Water and Waste water treatment

- ▶ **SCALE & CORROSION INHIBITORS**
- ▶ **BIOCIDES**
- ▶ **ANTI SCALE & DISPERSANTS**
- ▶ **BOILERS**
- ▶ **FLOCCULANTS**
- ▶ **INORGANIC COAGULANTS**

Cooling Water system

Scale & Corrosion Inhibitors

BASECOR-9501	Nitrite type inhibitor for closed loop cooling water system
BASECOR-9505	Molybdite type inhibitor for closed loop cooling water system
BASECOR-9507	All-organic type inhibitor for closed loop cooling water system
BASECOR-9508	Nitrite type inhibitor for closed loop glycol containing system
BASECOR-9611	Zinc-free type for open loop cooling water systems with soft waters in wide range of pH value
BASECOR-9632	Zinc type inhibitor for open loop cooling water systems with all soft and hard waters in low range of pH value. (7.8<Ph<8.2)
BASECOR-9642	All-organic type inhibitor for open loop cooling water systems with high concentration cycle and high pH value (pH>8.5)

Biocides

BASECIDE-9301	Non-oxidizing type with izothiazolinone
BASECIDE-9302	Non-oxidizing type with quaternary amine
BASECIDE-9307	Non-oxidizing type with aldehyde
BASECIDE-9310	Non-oxidizing type with THPS

Anti Scale & Dispersants

BASEPERS-8300	Bio-dispersant for open cooling water systems
BASEPERS-8301	Bio-dispersant for open cooling water systems
BASEPERS-8302	Anti-Scale & dispersant for cooling water systems
BASEPERS-8303	Oil-dispersant for open cooling water systems
BASEPERS-8501	Anti-scale and dispersant for Reverse Osmosis systems
BASEPERS-8502	Anti-scale and dispersant for Reverse Osmosis systems
BASEPERS-8503	Alkaline Membrane Cleaner for Reverse Osmosis systems
BASEPERS-8504	Acidic Membrane Cleaner for Reverse Osmosis systems
BASEREMOVE-7100	Scale remover, Inorganic acid-corrosion inhibitor type, for steel systems
BASEREMOVE-7103	Scale remover Inorganic acid-corrosion inhibitor type, for Galvanized, Copper

Boilers

BASEHIB-8103	Anti-scale for low/medium pressure boilers
BASEHIB-8201	Bisulfite type oxygen Scavenger for low pressure boilers
BASEHIB-8203	DEHA type oxygen Scavenger for med/High pressure boilers
BASEHIB-8204	Amine type corrosion inhibitor for condensate line of boilers

WATER AND WASTE WATER TREATMENT

Flocculants

BASEFLOC-6102	Cationic Flocculant for water & waste water treatment and sludge dewatering process in filters & belt filter presses
BASEFLOC-6201	Anionic Flocculant for water & wastewater treatment and mineral processing operations

Flocculants

BASEPAC-6301	Poly Aluminum Chloride (PAC) an inorganic coagulant for common range of turbidity waters
BASEPAC-6302	Poly Aluminum Chloride (PAC) an inorganic coagulant for waters with very high or very low turbidity
BASEPAC-6305	Poly Aluminum Chloride (PAC) In Powder form

BASECHEM

«BASECHEM» LLP

**38/1 building, Free Economic Zone 1,
Industrial Zone 5,
FEZ «Seaport Aktau»,
Aktau, Kazakhstan, 130000**
